Save Time, Save Money!

Saves presorting and delivery time
Prevents confusion in pickup of mail
Best possible way to expedite delivery and pickup of mail

A new modern, attractive, quality built, mail distributing cart that an employee will be happy to use—designed for office use to harmonize with other furniture.

Built for service, functional design is strong and durable, yet light and maneuverable, to insure long life and continued service. Entire frame and uprights chrome plated, enhancing the appearance as well as being a permanent finish.

Filing compartments made of rust proof metal, electrically welded, reinforced where necessary to add rigidity. No exposed parts or surfaces to catch on. Baked enamel finish in office blue-grey color to blend with other office furniture.

MAIL DISTRIBUTING CART MODEL M-100

Upright separator to keep bottom filing drawers from touching.

3" ball bearing full swivel non-marking rubber casters.

Cart without folders makes an ideal cart for delivering supplies.

Price \$59.50 Less folders.
F.O.B. Minneapolis, Minnesota

MOBILE FILING CABINET MODEL M-102

Price \$59.50 Less folders.
F.O.B. Minneapolis, Minnesota

Mobile Filing Cabinet on wheels can be used as an additional file next to a desk or wherever records have to be moved from one department to another -- payroll and production, on the job filing and many other uses.

SPECIFICATIONS—Model M-100

Length	33"
Width	17"
Height	36½"
Filing Compartments — Upper 24½ x 15¼ x 10" — 2 Lower 15 x 11½ x 6"	
Capacity Upper File	75 folders
Hanging Folder Size LEGAL	14¾ x 9¾"
Weight	39 lbs. Less Folders
Shipping Weight	42 lbs.

Handles on both ends, at best operating height. Handles are curved in such a way as to eliminate scratching of walls while operating. All filing drawers removable.

Designed to give maximum space in filing compartment and still narrow enough to be able to wheel in between the narrowest aisles.

Hanging folder slide rail is part of upper filing cabinet, therefore no sagging of same. Folder slide rail is chrome plated which makes for easier sliding of hanging folders on the slide rail.

Same cart is used for Mail Distributing Cart and Mobile Filing Cabinet. Only difference is tab set-up.

Another Time and Money Saver!

THE MAILBAG HOLDER

1. USE MAILBAGS . . . Use of mail bags gives you greater speed through the postoffice, less handling and, therefore, your mail reaches its destination in shorter time and in the best of condition.

4. BUILT FOR SERVICE . . . Functional design and sturdy tubular steel construction insure long life and continued service. Speeds handling of mail with greater ease and less manpower. Keeps mail rooms orderly and efficient.

2. COMPLETELY PORTABLE . . . The large, hard rubber, full swivel caster permits extreme ease of handling . . . even when full of 500 pounds of mail. Can be moved wherever needed in plant or office. Overall height holds bags clear of the floor.

5. TWO SIZES . . . The Model A-2 accommodates two bags—the Model A-4 accommodates four bags. These units can be grouped in rows to handle even the largest or most complex sorting problems. Both units are of the same height. Additional units can be added later as need arises to fit any mailroom layout.

3. EASY TO UNLOAD . . . The unique bag hooks hold grommets of mail bag securely even under weight of full bags . . . yet can be released with fingertip pressure. Eliminates all lifting of mail bags. Will adjust to handle either No. 1 or No. 2 U.S. mail bags. Use for Parcel Post as well as regular mail.

6. EASY TO STORE . . . When units are not needed, they fold compactly to occupy only one-fourth of the floor space needed when open. When folded, frame will stand upright alone. Their light weight even permits storage off the floor.
